About Us

The journey of A K Mishra group started more than two decades ago. The journey started with the group's flagship company Greenfield Biotech in the year 1997. The young and enterprising Ashok Kumar Mishra left the secured Government service to chase his dream to shape the dream of others. Backed by the strong academic background in Agricultural Science and zeal to take up the challenge, Ashok started creating his own territory in the field of Greenfield development and Landscaping . His love for nature and green helped Greenfield Biotech to become one of the most prominent names in the Eastern India in a very short span of time.

In the due course of time, Greenfield Biotech, became the integral part of the leading Developers in this region for the Landscaping and Greenfield Development solutions.

While working closely with the developers, the growing demand of Real Estate was identified. That became the inspirational force for Ashok to expand his horizon into new verticals like Real Estate Construction, Real Estate Marketing, Interior Designing to explore the growing opportunities and in this way to provide a single window solution to the clients.

Over the last two decades, the group has transformed itself from a greenfield expert to an end to end Real Estate solution provider.
